

Save Our Show - Art Cafe Together Community Art Project

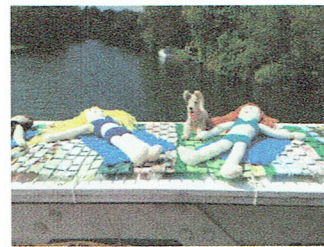

Last year we braved the weather to yarn bomb Whitchurch Bridge ...

... Come wind

... come rain

... Come shine

This year 500+ people have made totem poles for Pangbourne Meadow

from terracotta,

glass and

textiles.

We've hit a snag – the ground is too hard to put the 84 poles in ☹

We've tried ... without success ...

... a sledgehammer,

... a post auger

and rain dancing.

We could do with help from someone with either

a post thumper or ...

a post hole borer ...

or maybe this crew?

Please contact gill@artcafe.co.uk if can you help Save Our Show.
